

GM1351 Digital Sound Noise Level Meter

This Digital Sound Noise Level Meter is designed to meet the measurement requirement of safety engineers, health, industrial safety offices and sound quality control in various environments, which include factory, office, traffic, family and audio system.

Features:

- It is designed according to the IEC651 TYPE2 & ANSI S1.4 TYPE2
- Accuracy up to +/- 1.5 dB
- Measurement Range: 30 - 130dB
- Auto backlight display
- Tripod Mounting option

Specification:

- Measuring Range: 30 - 130 dBA ; 35 - 130 dBC
- Accuracy: ± 1.5 dB
- Frequency Range: 31.5Hz - 8.5KHz
- Frequency Weighting: A
- Digital Display: 4 digits
- Resolution: 0.1dB
- Sample Rate: 2 times/second
- Microphone: 1/2 inch electric condenser microphone
- Power Supply: 9V battery (included)

EVE-eVision Electronics Pakistan is the Pakistan's first online Electronics Parts Store. Buy electronic components, electronics kits, parts and gadgets. You can buy on line, by phone or collect from store. All parts and components will be ready in 30 minute. We can deliver all over Pakistan and internationally as well. - See more at:
